

DANUBE DELTA TOUR 3 DAY/ 2 NIGHT TRIP

At the end of a 2800 km long journey, flowing through several countries across Europe, the Danube empties into the Black Sea forming a largely unspoiled wetland, a veritable paradise for bird lovers, fishers, and seekers of solitude alike. **Danube Delta is included on UNESCO's World Heritage** list and is one of Romania's most fascinating attractions.

The waters of the Danube, which flow into the Black Sea, form the largest and best preserved of Europe's deltas. The Danube Delta hosts over 300 species of birds as well as 45 freshwater fish species in its numerous lakes and marshes.

The 580.000 hectares delta is home to massive amounts of waterbirds of all kinds, most notably pelicans of two species, herons, storks, cormorants and terns. It is a favorite staging area for passage migrants and also wintering grounds for masses of migrating waterbirds from the steppes, the boreal forests and the tundra's further north.

About this activity

- Duration: two days
- Departure Time: 08:00 am
- English speaking tour guide
- Departure & Return Location
- Pick-up & drop-off at your hotel

Price Includes:
