

Call for papers

Alternative Accounts Conference 2018

HEC Montréal, QC, Canada

Main conference: May 11 – 12, 2018

Emerging Scholars Colloquium: May 10, 2018

The *Alternative Accounts Conference* brings together accounting faculty and doctoral students from North America and beyond who are interested in alternative accounting research. The Conference especially aims to increase accounting researchers' awareness of the diverse areas of research belonging to the "alternative" paradigm of accounting research, and to provide a forum to discuss these studies from a variety of viewpoints – in a constructive environment. This conference rotates between Alberta, Ontario and Québec.

The 2018 conference will be held in Montréal, Québec on Friday, May 11 and Saturday, May 12, 2018, at HEC Montréal. We are interested in receiving critical and interpretive papers at a relatively advanced stage of completion or already submitted to journals but not yet accepted for publication.

The Emerging Scholars Colloquium precedes the main conference (Thursday, May 10, 2018). The Colloquium aims to provide doctoral students and emerging researchers with the opportunity to discuss their work with other doctoral students and established scholars in the field.
