

23rd EMAN Conference focused on Biodiversity and Natural Capital Accounting

The Czech University of Life Sciences Prague and the **Environmental and Sustainability Management Accounting Network** organize the **23rd EMAN Conference focused on Biodiversity and Natural Capital Accounting**.

Date: 7th - 8th November 2019

Place: Czech University of Life Sciences in Prague

The Czech Republic

The Czech University of Life Sciences Prague and the Environmental and Sustainability Management Accounting Network organize the **23rd EMAN Conference focused on Biodiversity and Natural Capital Accounting**.

The aim of the conference is to discuss the possibilities of including biodiversity as part of natural capital in the company's management accounting, including valuation options for these purposes. Furthermore, from the point of view of reporting, the use of natural capital accounting, including biodiversity and the monitoring of the impact on the sustainability of the enterprise. The subject is also a discussion of indicators addressing biodiversity at the enterprise level and linking with reporting at national level.

The conference addresses issues related to biodiversity and natural capital accounting, performance measurement, management & strategy, management control, measurement tools and reporting. We invite extended abstracts that include but are not restricted to the following areas linked to biodiversity and natural capital. The conference also welcomes extended abstracts on the general theme of the EMAN network.

Biodiversity management accounting	Environmental management accounting
