

Call for Papers

1st Edition

International Interdisciplinary Symposium on Sustainability C2ID 2026

May 29, 30, and 31, 2026

Hasdrubal-Thalassa 5* Hotel,
Hammamet (Tunisia)
www.hasdrubal-thalassa.com

Theme

Sustainable Development and Digitalization: Toward a Responsible Transformation

The International Interdisciplinary Symposium on Sustainability C2ID 2026 (1st edition) will bring together an international community of researchers, academics, practitioners, public decision-makers, and experts to debate contemporary issues related to sustainable development and digital transformation. This first edition aims to provide a space for **rigorous scientific reflection**, **interdisciplinary collaboration**, and the **sharing of innovative experiences**, drawing upon theoretical, methodological, and empirical approaches, as well as **intervention-research**, **qualimetric approach**, and **socio-economic approaches**.

CONFERENCE THEMES

1. Digital Transformation and Sustainability Models

- Artificial intelligence and sustainability
- Green technologies (GreenTech)
- Blockchain, traceability, and accountability
- Digital sobriety and carbon footprint reduction
- Digital platforms and new organizational models

2. Governance, Ethics, and Social Responsibility

- Sustainable Corporate Governance and Stakeholder Engagement
- Technology ethics and data protection
- International standards, certifications, and regulatory frameworks
- Transparency, anti-corruption, and integrated reporting
- Ethical dilemmas related to digitalization

3. Technological Innovation and Ecological Transitions

- Renewable energies and sustainable infrastructures
- Smart cities and smart territories
- Circular economy and frugal innovation
- Sustainable mobility and smart logistics
- Industry 4.0 and environmental impact reduction

4. Accounting, Auditing, Sustainable Finance, and ESG Reporting

- Measuring sustainable performance
- Auditing and verification of non-financial information
- Green finance, responsible investment, and financial markets
- ESG management tools and dashboards
- Integrated reporting, CSRD, and international standards

5. Organizational Management and Change Leadership

- Sustainable leadership and organizational transformation
- Hybrid work and distributed team management
- Managerial innovation and collective intelligence
- Organizational resilience and systemic risks
- Skills management in digital environments

6. New Forms of Work and Digitalization

- Remote work, flexibility, and well-being at work
- Platform based work and new employment relationships
- Automation, generative AI, and the future of jobs
- Digital inclusion and inequality reduction
- Digital skills and talent development

7. Research Methods in Sustainability and Interdisciplinarity

- Mixed methods and methodological innovations
- Intervention research and collaborative approaches
- System modeling and simulation
- Big Data analytics applied to sustainability
- Interdisciplinary and transdisciplinary approaches

8. Public Policies, Territories, and Sustainable Development

- Sustainable economic and social policies
- Territorial governance and local development
- Energy transition and national strategies
- Territorial inequalities and inclusive sustainability
- Public–private partnerships and institutional innovations

Special attention will be given to **intervention-research, qualimetric and socio-economic approaches to governance, responsible innovation, societal impact, and systemic analysis.**

DOCTORAL WORKSHOPS

As part of C2ID 2026, an **international doctoral workshop** will be organized to support PhD candidates in advancing their research. This workshop is open to doctoral candidates even in the early stages of their dissertation and offers:

- A constructive space for scientific exchange
- In-depth feedback from experts
- Methodological and epistemological guidance

PhD candidates are invited to submit a research report (max. 8,000 words) presenting: problem statement, literature review, theoretical framework, methodology, preliminary results, and references.

A **second workshop** will be dedicated to advanced training in **structural equation modeling (CB-SEM approach)** for PhD students and faculty.

CONFERENCE CHAIRS

Marc Bonnet, University of Lyon & ISEOR, France

Mehrez Chaher, University of Tunis, Tunisia

Tarek Mejri, University of Evry, Paris-Saclay, France

SCIENTIFIC COMMITTEE

Amor Ayed, Dar Aluloom University, Saudi Arabia

Tahar-Lazhar Ayed, Dar El-Hekma University, Saudi Arabia

Nacer Azaiez, University of Tunis, Tunisia

Mohamed Karim Azib, University of Tunis El Manar, Tunisia

Jamel Azibi, University of Jendouba, Tunisia

Sofiane Baba, University of Sherbrooke, Canada

Fatma Bakini, University of Tunis, Tunisia

Dominique Baruel Bencherqui, ISTE Business School, France

Belgacem Bchini, University of Tunis, Tunisia

Ridha Bechri, University of Jendouba, Tunisia

Meryem Bellouma, University of Carthage, Tunisia

Mohamed Anis Ben Abdallah, University of Carthage, Tunisia

Anissa Ben Hassine, ESSECT, Tunisia

Abderrazak Ben Maatoug, University of Tunis, Tunisia

Syrine Ben Romdhane, ESSECT, Tunisia

Lamjed Ben Said, University of Tunis, Tunisia

Dorsaf Ben Taleb, University of Tunis, Tunisia

Didier Bensadon, IAE Lyon, France

Sarra Berraies, University of Tunis, Tunisia

Marc Bonnet, University of Lyon and ISEOR, France
